Director's Message

Being the Director of an 'Institution of National Importance' is a matter of pride as well as responsibility. Now, as the baton has passed on to me, I realize that it is for me to lay a roadmap that would take this institution to even greater heights. Having come from a research background and having seen, at close quarters, what meaningful research output can do for the growth and prestige of the country, I am convinced that research has to be a thrust area for our institutions of higher learning. I would strive to provide that thrust in this institution. If we succeed in enthusing our faculty, staff and students towards this end, our institute would become a cradle of creative and innovative ideas that can help develop new technologies, which, in turn, would transform our country. As a young institute, IIIT Sonepat has a unique opportunity to make a difference not only to the Indian IT industry and the academic research community, but also to the people of the entire region of Haryana. With this environment and rapidly improving connectivity to the IT capital New Delhi and the business city Gurugram, IIIT Sonepat is strategically positioned to develop into one of the best institutes of national importance in the country, under able and caring mentorship by NIT-Kurukshetra. In the coming years, with the support of its eminent Chairperson and Governing Body, the Institute will make every effort to construct and move to its spacious permanent campus located in a pristine setting near Sonepat.IIIT Sonepat is keen to push an effective research agenda and enhance its academic offerings by adding postgraduate and research programmes as well as more specialisations of current relevance in undergraduate studies. Postgraduate studies and research will be a key factor for improving our visibility to the world. I also seek support of all stakeholders in steering the institute to a great future. We have lots of work to do on multiple fronts. We have to create quality infrastructure, develop labs for academic and research activities, enhance research potential, and expand the academic programs. We have to achieve all these in the fast changing education system. Let's all work together to achieve these goals.

Prof. M N Doja
Director, IIIT Sonepat

T&P Officer's Message

Indian Institute of Information Technology Sonepat has established itself as one of the most sought after destinations for aspiring technologists all over India. We attract the finest students for our programmes and we invariably aspire to meet the increasing demands of the industry by nurturing some of the best engineers and developers the country has to offer.IIIT is an era of technological innovation.
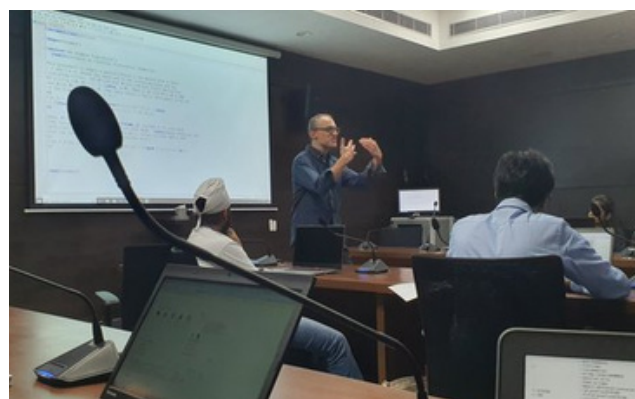

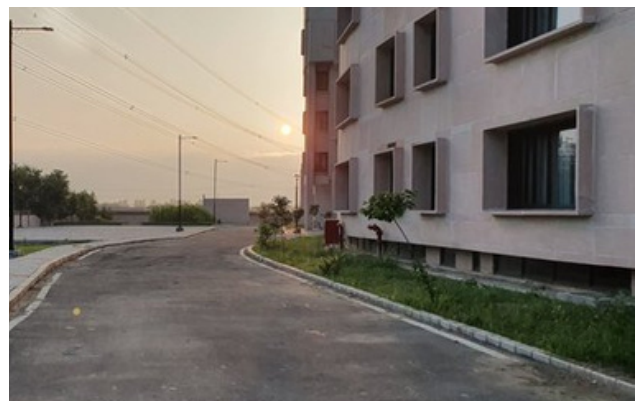

The Department of training and placement has been designed specifically for emerging leaders like you. The purpose of this department is to provide an efficient professional and productive environment for both corporate and students in their efforts to find the perfect person-position fit. The Training and Placement department offers a broad range of expertise services, programs and resources to assist students with their career development. These training programs give the students tips on how to crack aptitude, group discussion, interview skills and resume preparation.

Institution has made constant efforts to provide knowledge-based expert services for satisfying the needs of the industry and thus helping in building a positive attitude in the young minds of this generation and prepare the youths to face the challenges of the corporate world. The modern educational world is reverberating with the waves of innovation all around the world. In this dynamic milieu, it is mandatory that the young minds of our country be nurtured and encouraged to be placed at the highest pinnacle of success.

Ms. Anjali Bajaj
